Chairman Liefer said he received a letter from Dave Dowling saying that negotiations would be starting with the Union members at the Nursing Home.

Chairman Liefer said he was at a meeting with the Architects for the Oak hill Transitional Care Unit. The unit as proposed is now about 1500-2000 square feet over the original plan, and that also makes the building cost exceed the project budget. He said the Architects continue to work with Kim Keckritz to make the necessary revisions that bring the project back within budget.

Chairman Liefer said interviews are being conducted to find a new Director for the East-West Gateway Council.

Motion was made by Commissioner Elmore, with a second by Commissioner Wittenauer approving the Prevailing Wage rates for 2015. All voting Aye, none Nay and none Absent. Motion carried.

Explanations

MONROE COUNTY

The following list is considered as those days for which holiday rates of wages for work performed apply: New Years Day, Memorial Day, Fourth of July, Labor Day, Thanksgiving Day, Christmas Day and Veterans Day in some classifications/counties. Generally, any of these holidays which fall on a Sunday is celebrated on the following Monday. This then makes work performed on that Monday payable at the appropriate overtime rate for holiday pay. Common practice in a given local may alter certain days of celebration. If in doubt, please check with IDOL.

Oil and chip resealing (O&C) means the application of road oils and liquid asphalt to coat an existing road surface, followed by application of aggregate chips or gravel to coated surface, and subsequent rolling of material to seal the surface.

EXPLANATION OF CLASSES

ASBESTOS - GENERAL - removal of asbestos material/mold and hazardous materials from any place in a building, including mechanical systems where those mechanical systems are to be removed. This includes the removal of asbestos materials/mold and hazardous materials from ductwork or pipes in a building when the building is to be demolished at the time or at some close future date.

ASBESTOS - MECHANICAL - removal of asbestos material from mechanical systems, such as pipes, ducts, and boilers, where the mechanical systems are to remain.

CERAMIC TILE FINISHER AND MARBLE FINISHER

or stone and all other materials that may be used and installed by [a] tile layer or marble mason. In addition, the grouting, cleaning, sealing, and mixing on the job site, and all other work as required in assisting the setter. The term "Ceramic" is used for naming the classification only and is in no way a limitation of the product handled. Ceramic takes into consideration most hard tiles.

ELECTRONIC SYSTEMS TECHNICIAN

Installation, service and maintenance of low-voltage systems which utilizes the transmission and/or transference of voice, sound, vision, or digital for commercial, education, security and entertainment purposes for the following: TV monitoring and surveillance, background/foreground music, intercom and telephone interconnect, field programming, inventory control systems, microwave transmission, multi-media, multiplex, radio page, school, intercom and sound burglar alarms and low voltage master clock systems.

Other Classifications of Work:

For definitions of classifications not otherwise set out, the Department generally has on file such definitions which are available. If a task to be performed is not subject to one of the classifications of pay set out, the Department will upon being contacted state which neighboring county has such a classification and provide such rate, such rate being deemed to exist by reference in this document. If no neighboring county rate applies to the task, the Department shall undertake a special determination, such special determination being then deemed to have existed under this determination. If a project requires these, or any classification not listed, please contact IDOL at 217-782-1710 for wage rates or clarifications.

MINUTES OF THE MEETING OF THE BOARD OF COUNTY COMMISSIONERS
OF MONROE COUNTY, ILLINOIS AUGUST 17, 2015

Carla Heise was present to discuss Ambulance Service business. She presented a copy of the most recent report from the new billing company. Ms. Heise said so far she likes working with this company. She said she is also about 2/3 through reviewing the old calls to see what amounts are outstanding and what can be done to collect those amounts.

Ms. Heise said with all of the County meetings now coming to the Annex Building, she wanted permission to lock the door between the Annex meeting room and the Ambulance Garage. The Commissioners said they had no problem with that, and they also felt it should be locked.

Kim Keckritz was present for the monthly Oak Hill report. She said things are still positive with the financial report. Ms. Keckritz reported that the Architects have proposed changing the entrance to the Transitional Care Unit, because of problems fitting the footprint of the building on the construction site without making this change. She said she would rather have the entrance on the Hamacher Street side of the building, but if it can only work with the revision, then that's what will have to be done. Chairman Liefer said we need to remember that there is a limited budget for this project, so the Architects are going to have to revise the scope until a reduction is achieved. Ms. Keckritz said one thing that could be left off the project at this time are the extra private rooms, but if we don't do that now, it will be more expensive when that work is done at a later date. Commissioner Elmore said the County Board may have to consider increasing the Nursing Home tax allocation to provide more funding.

Dennis Knobloch provided a copy of the most recent schedule of events for the 2016 Bicentennial along with a current listing of those who have made donations to the event.

Steve Huetsch and Jennifer Buss of USI Midwest were present to discuss the upcoming Health insurance renewal for Monroe County. They presented a report and reviewed information regarding the County's insurance program. With the current information, and with keeping the same plan details, they projected a 10.11% increase in premium costs to the County. Mr. Huetsch and Ms. Buss said they will continue to review this situation with the updated plan details for the next several months until they provide the final premium percentage and amount.

Kevin Koenigstein came to the meeting to discuss the Budget Hearings. He said he would like to have them no earlier than the week of September 21. He said he would try to have the revised budget projection sheets to the County Department Heads prior to that time, so they can propose the figures for their 2015-2016 budgets. The Commissioners decided to set the budget hearings for September 22 and 23, both days beginning at 7:30 a.m.

There being no further business to come before the Board, motion to adjourn was made by Commissioner Elmore, with a second by Commissioner Wittenauer. All voting Aye, none Nay and none Absent. Motion carried.
